

## The OAR Route by Parish with Path Numbers

The following lists the route from parish to parish by path numbers, road names, road numbers, road destination or paths on other open public areas. The path numbers are made up of three parts a parish abbreviation, e.g. Wendover = WEN, followed by a path number, e.g. 15, followed by a section number, e.g. 1 as in the first entry below to make WEN/15/2. The section number is only given where just that section of the path is walked so if there is no section number it means the route follows the whole path.
