| Section 9           | Miscellaneous            | 12   |

## Section 1: INTRODUCTION

The Cuddington Neighbourhood Plan (CNP) consists of a main document (The Plan) and the following appendices:

Appendix A: Cuddington Neighbourhood Plan: General Evidence base

Appendix B: Cuddington Neighbourhood Plan: Local Green Spaces

Appendix C: Cuddington Neighbourhood Plan: Landscape

Appendix D: Cuddington Neighbourhood Plan: Important Local Views

Appendix E: Cuddington Neighbourhood Plan: Built Environment

Appendix F: Cuddington Neighbourhood Plan: Social Infrastructure

Appendix G: Cuddington Neighbourhood Plan: Traffic

This appendix sets out the main sources of environmental data that have been used in the preparation of the Cuddington Neighbourhood Plan (CNP).

The main factors / existing planning designations influencing the future of Cuddington are:

- VALP (as modified): Settlement Hierarchy and Growth Strategy
- The Brill – Winchendon Hills Area of Attractive Landscape (AAL)
- The Cuddington Conservation Area
- Listed buildings within Cuddington
- The Thames Valley flood plain and Biodiversity Opportunity Area
- Archaeological Notification Areas
- The definitive public rights of way and Bridleways and their amenity

## Section 2: PLANNING

### National planning

National Planning Policy Framework (NPPF) Feb 2019

### Thame Valley Extension Biodiversity Opportunity Area

<http://www.buckinghamshirepartnership.gov.uk/media/1022723/Thame%20Valley%20Extension.pdf>

The Thame Valley Extension Biodiversity Opportunity Area falls within the CNP area. Biodiversity opportunity areas are the key areas in Buckinghamshire and Milton Keynes for the restoration and creation of priority habitat. They are the most important areas for biodiversity in the district and represent a targeted landscape scale approach to conserving biodiversity as defined in the Buckinghamshire and Milton Keynes Biodiversity Action Plan. Developments must not prevent the aims of a biodiversity opportunity area from being achieved which includes the management and restoration of rivers/streams, lowland meadows, hedgerows, ponds and arable field margins, or their creation where appropriate.

### Rivers and Stream Corridors

Watercourses (including main rivers and ordinary watercourses) fall within the CNP area. Development proposals adjacent to or containing a watercourse shall provide or retain a 10m ecological buffer zone (more information is provided within the Watercourse Advice Note Supplementary Planning Document). Ecological buffer zones conserve, enhance and protect the water environment and should be designed and managed to enhance their value for biodiversity.
