

Cuddington Annual Parish Council Meeting 19/04/23

This report is supplied by Waddesdon Neighbourhood Police Team. The incidents recorded are just a snapshot of incidences that occurred within the parish between 19/4/22 and 19/04/23. The examples are given with the belief that they are of interest to the parish and public alike. I have however used my discretion to leave out incidents which I do not think are in the public interest. I have also mentioned incidents with no reports received to highlight that they may have become an issue in other areas and I wanted to make the public aware.

Burglary 7/11/22 A male has stolen keys to the owner's car that was parked in the driveway and driven off in the stolen car. Investigations are ongoing. Members of the public are reminded to keep vigilant regarding where they put their car keys especially if their cars are high value.

Criminal Damage 08/7/22 A resident reported that their car was keyed.

Fraud -There were no reports received. Fraud against the public is a growing issue that affects us all. We would urge residents to be aware of strangers making contact by phone, e-mail, or door to door persons asking for your details. Do not give your personal details to anyone that you do not know. For further information you can google "The Little Book of Big Scams" which is in its fifth edition. Or if this isn't possible we have limited copies and can put a copy through your letter box if required.

Anti-Social Behaviour (ASB). No report received. Examples of general ASB would include noisy parties, riding motorbikes in fields without the owner's permission, or fly-tipping or other nuisance to the community etc. In other area villages we have experienced a rise in ASB and so we are investing a lot of our time in these locations to identify those involved and engage with the public to understand their concerns and prevent repeat incidents.

Theft from Vehicles. There were no reports. As a rule we would ask the public not to leave anything on view in their vehicles- especially tools. Number plates are also being taken in other areas. This would be done in order to commit further crimes using another vehicle with the stolen plates. Number plates can be protected by fitting anti-theft screws. Thames Valley Police have a small amount of stock and may be able to provide on request. The screws can also be got from diy shops or car parts shops. Please also do not leave anything on view in your vehicles for would - be thieves to feel tempted.

Road Traffic Collision. (RTC) There were 7 RTC's reported in the area

A note to put in your calendars is **Emergency Services and Community Day at the Quainton Railway Station on 8th May 2022** where Waddesdon Neighbourhood Team will be in attendance along with other services for the public to see. We're hoping for blue skies and a great attendance!

Kind regards

PCSO C715 Danny Fahy
